

## *The spotter:*

37-year-old **Nadine Flückiger** is Swiss and lives in Geneva

I was originally planning to stay in Geneva for a year (I'm from Kreuzlingen). Now, 18 years later, I feel so at home that I've decided to reveal my insider knowledge of the city on [spottedbylocals.com](http://spottedbylocals.com). It's a website where people from all over Europe share what they love about their cities. I've always done a bit of writing and photography, so the idea appealed to me right away. When choosing a spot, I describe what exactly I like about it and do some research to get the facts straight. I have to visit the venues that I recommend regularly for 'quality control purposes' – that's the fun part! Being a spotter makes me look at Geneva in a different way and it's creative. I'm free in the way I write the articles and take the pictures. Most places are part of my everyday life: the restaurant where I meet my friends, the place where I buy my chocolate. My favourite? Café du Grütli: cinema, aperitif, dinner, delicious desserts – everything in one place in an arty atmosphere. [www.spottedbylocals.com](http://www.spottedbylocals.com)
